### Description

This book presents the first comprehensive legal analysis of the Oslo Accords. Professor Geoffrey Watson begins by rejecting suggestions that the Accords are non-binding political undertakings. He argues instead that they are binding international agreements between subjects of international law. Professor Watson next analyses Israeli and Palestinian compliance with the Accords. Watson concludes that each side has a mixed record of compliance, but that neither side has committed so serious a breach as to warrant termination of the Accords. Finally, Professor Watson offers some suggestions on how international law might help shape a final status agreement between the parties.

The Oslo Accords are a set of agreements between the Government of Israel and the Palestine Liberation Organization (PLO): the Oslo I Accord, signed in Washington, D.C., in 1993; and the Oslo II Accord, signed in Taba, Egypt, in 1995. The Oslo Accords marked the start of the Oslo process, a peace process aimed at achieving a peace treaty based on United Nations Security Council Resolutions 242 and 338, and at fulfilling the "right of the Palestinian people to self-determination."
