Vegan: community ecology package. R package version 1.17-8

Abstract:

Ordination methods, diversity analysis and other functions for community and vegetation ecologists

About

World Agroforestry (ICRAF) is a centre of science and development excellence that harnesses the benefits of trees for people and the environment. Leveraging the world's largest repository of agroforestry science and information, we develop knowledge practices, from farmers' fields to the global sphere, to ensure food security and environmental sustainability...[read more](#)
